Installing SPSS for the Mac from CD

Below you will find instructions for installing SPSS on Intel based machines. The lease is available to run SPSS from the hard drive of a University desktop or laptop computer, or install SPSS on a home computer belonging to UNCG students, faculty, and staff.

**Installation Instructions**

Place the CD in the CD-ROM drive of your computer. Double-click **SPSS_Statistics_20_Mac_.dmg file** on the CD. The window below will open.

![SPSSStatistics](Image1)

![SPSS_Statistics_Installer](Image2)

Double-click **SPSS Statistics Installer**. The following window will open.

![PasswordDialog](Image3)

- Type the **Account name** of the local administrator of your machine in the name box. This information may already be filled in for you.
- Type the **Password** of the local administrator's account in the password box.
- Click **Ok**. The following window will open.
Check **Ok** to install in English. The following window will open.

Click **Next**. The following window will open.
Select *Site License* as the type of license. The next window will open.

Read and then select *I accept the terms in the license agreement*. Click the *Next* button. The window below will open.
• Type your *username* in the User Name box.
• *UNCG* should be entered for the Organization.
• Click Next. The window below will open.

**Help Language**

*English* will install as the default Help language. If you wish to select another help language, click the box beside the language. Otherwise, click Next. The window below will open.
Click **Next** to install the application on the hard drive. The window below will open.

Click the **Install** button. The window below will open.
The application will install, and the window below will open.

If you wish, you may register for product updates by checking the box. Click on Done. The window below will open.
Select "License my product now". (Note: Make sure you have an Internet connection before going to the next step.)
• Click the Next button. The window below will open.
Click the **Next** button, followed by the **Finish** button. You have successfully installed SPSS!
