

## Jabber

Cisco Jabber lets you access all of the full-featured unified communications features you need on Windows, Mac, IOS and Android devices.

Cisco Jabber offers secure collaboration with campus contacts. It brings together instant messaging, presence, voice (dial numbers directly from your client), voicemail integration, desktop sharing, file transfer and conferencing all into a single client. Cisco Jabber can be used for Instant Messaging only or as part of a complete unified communications solution.

To learn more about softphone services, please contact 6-TECH at (336) 256-TECH (256-8324) or send an email to [6-TECH@uncg.edu](mailto:6-TECH@uncg.edu).
