Non UNCG Payroll Persons with UNCG Relationships.

Faculty and Staff who are on UNCG Payroll are eligible for campus services based on their employment status.

Persons who are not being paid via UNCG Payroll but who provide services to UNCG would typically fall into one of the following five categories.

Persons must be appropriately categorized in order to receive services. First and Last Work Dates must be established in Banner to define the beginning and planned end dates of the relationship.

If an unpaid relationship ends before the Last Work Date that was originally established, the sponsoring department head or instructor must notify the appropriate data entry office (Faculty Personnel Services or Human Resources) to change the Last Work Date to reflect the ending of the relationship.
